Like everything else, the world of diamond jewellery is changing. Nothing is set in stone.

That's what makes life great.

At Delve, we create premium conscious and sustainable fine jewellery using certified 18k recycled gold and carbon-neutral lab-grown diamonds for a new generation of diamond consumers.

Igniting a sense of possibility with every exquisite detail, sparking a radiant vision of what could be.

Created for people who dare not only to shine brightly, but choose to reflect each bold choice openly and consciously.

Dare to Delve.

Soul of *the Cut*

Each diamond has a soul, an inherent quality that is unique to its cut. Looking deep into that soul, we let it unfold and influence the design of our jewellery, inviting it to express outwards.

Forever.

Emerald

The emerald cut embodies serene elegance with its elongated shape and diagonal corners, radiating balance and harmony. Each facet captures light in a captivating dance, while Delve's iconic chaton with an open V cutout highlights the emerald's brilliance from every angle, revealing its true beauty.

Pear

The pear diamond merges the elegance of a round cut with the allure of a marquise shape. Combining curves with an edge, it reflects life's ebbs and flows. Valued by those who appreciate individuality, the pear-shaped diamond tells stories of unique connections, exuding confidence and distinction with Delve's iconic V prong and two pear-shaped prongs.

Marquise

The marquise cut diamond combines symmetry with playfulness, offering elegance and joy. Our designs embody the open and approachable personality of this shape, capturing its ability to twist and dance, celebrating those uniquely happy moments that make our days memorable.

Tapered Baguette

The tapered baguette cut offers a uniquely angular yet tapered aesthetic. Our collection brings this minimalist diamond cut to centre stage, with lines extending seamlessly into the setting and throughout the design.

Signature Emerald Step

The emerald step takes our angular queen to the podium. With repeating the emerald diamond raising every second diamond to create a step, it gives a new creative flair to an angular and known shape. This step design celebrates life's ups and downs. The diamond is set following lines from the diamond itself, being repeated into the gold. The rhythm of the lines and the play of light in the diamonds that flow as one around the piece is truly something out of the ordinary.

Signature Tapered Baguette Fringe

This signature style arrays the tapered baguette in a fan-like way. It creates the feeling of movement and openness. The tapered baguette makes surprising patterns when the stone itself is repeated and rotated and twisted. The fringe is edgy and approachable. Unveiling layers of you.
