Apostolos Jewellery
is a Greek based workshop
with international clientele.
The dark silver jewellery
with fused bright 18K gold
and precious stones,
are produced exclusively in house,
combining sheer craftsmanship
with remarkable aesthetic.
The aim is to give the customer
a wearable fine piece of jewellery
with a pleasing handmade feel
and unique contemporary design.

THERA

Dark silver organic forms,
bright explosions of yellow gold,
passionate ruby reds, diamond glints.
Depicting remembrances of feelings, emotions and moods.

Apostolos Kleitsiotis was led to the art of jewellery following his inclination and love for drawing.

He established his workshop in 1997, in his hometown Alexandroupoli-Greece.

Apostolos Jewellery is his brand and life's work.

Drawing inspiration from nature, antiquity, music, cinema, and painting,

Apostolos has spent years finding ways to take abstract notions such as love, affection, tenderness, passion

and transform them into stunning pieces of jewellery.

His creative philosophy is that the trace of the artist's hand must be evident, highlighting the uniqueness of each material without trying to alter but rather harness its natural look.

Apostolos' design respects the rules of geometric harmony and with the use of organic shapes

the resulting jewellery are characterized

by lightness, motion, originality and finesse.
