# DANISH DESIGNED JEWELRY FROM THE HEART

Spirit Icons is a Danish jewelry brand, founded in 2013 by Tim and Daniel. We are fascinated by the power that lies in the open mind. When we trust the pure inspiration, beauty comes naturally.

We design the jewelry at home in our living room, where the great amount of light and the calm atmosphere gives room for creativity. Art arises spontaneously and can't be forced. Therefore, the design is complete, and you will feel the piece of jewelry was created for you.

Our natural flow always leads us towards timeless and unique jewelry. We, who are driven by true passion, never compromise on design and quality.

*Tim & Daniel*

Spirit Icons item numbers are 5-7 digit numbers. The numbers are three-parted.

The first 4 digits indicates the item-group - if its earrings, necklaces, bracelets or rings.  
The 5th digit indicates te finish/colour: 1 is silver, 2 is gold-plated, 3 is black-rhuthium and 4 is rose gold-plated.

The last 2 digits after the hyphen indicates the size.

10501-45  
item-group      colour      size/length

It is important to give all digits of the item number when placing your order.

# WE CARE ABOUT OUR PLANET

## THE MATERIALS

Jewelry should emphasize your unique personality and give an extra touch to your look. That's why we don't compromise. We choose the best quality materials so you can enjoy your jewelry for a long time. Our jewelry is handmade, and even the smallest zirconia stones are grasped by hand under a microscope. We have jewelry in 14K gold and 925 silver, with or without stones and genuine freshwater pearls. Our brilliant-cut diamonds are in the quality WVS and have a so-called "excellent cut", which make the diamonds reflects light and colors optimally. Our silver jewelry is available in 4 colors, so you can create your own style across colors, designs and materials.

Most of our silver rings are available from size 48 up to size 64.

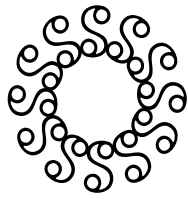

## GO GREEN

### THE SUSTAINABILITY

Jewelry is often passed down, but even new jewelry can carry a unique history. Our sensitive approach to the design process also characterizes our production and material selection –down to boxes, fillings and bags are produced in sustainable FSC quality to ensure balance in consumption and replanting of trees. All our jewelry bags are produced in degradable sustainable material.

We only use 100% recycled gold and silver, and our factory is ISO certified, so we are sure that our skilled goldsmiths have proper working, salary, and pension conditions.
