LUNATICA
ROMA

All the Lunatica Roma jewels are created to express beauty through classic shapes. Items handcrafted exclusively in gold with diamonds, pearls and precious gems, to embrace women's desires with a sophisticated design that encompasses all fashion trends and enhances its beauty and elegance.

Lunatica Roma is inspired by classic jewellery, by a world that preserves the values of the Italian goldsmith tradition on which the invaluable experience of the best master craftsmen is based through their contribution towards enhancing them. All this with a sensitivity to the contemporary language and attention to the dynamics of taste that are shaped over changing times.

VALUES

Lunatica Roma's system of values is based on three guiding principles.

CONTINUITY, the real life approach to tradition, knowledge of the basics, the ties to its own cultural and expressive roots.

RELIABILITY, respecting the commitments undertaken to consolidate strong, long-lasting relationships.

SUSTAINABILITY, professional expertise underscoring a development model based on in-depth knowledge and operational balance.

CRAFTSMANSHIP AND MADE IN ITALY

From the start, Lunatica Roma has adhered to Tf-Traceability & Fashion, the Italian Chambers of Commerce tracing system to guarantee authenticity of provenance. The history of the creation is thus traced, from inspiration to production, adding value to the local provenance of the production processes. This means promoting transparent consumption, providing products with a label that contains all information on the production processes and the places in which they were produced. This is an important step in establishing the strength and uniqueness of Lunatica jewellery both in Italy and worldwide.

Traceability code: AGR0085A To find out more, please visit: www.tffashion.camcom.it

CERTIFICATION

The authenticity of the products is guaranteed by the brand identification no. 1310RM, stamped inside all the items of jewellery. We hereby declare that the presence of nickel in Lunatica Gioielli products meets the requirements of European regulation EN 1811:2011. All the items are made using diamonds, the origin of which is guaranteed by and complies with the Kimberley Process: certification that ensures that profits made from the diamond trade will not be used to finance civil wars

TEAM

Fabio Porcini and Roberto Mazzotti, the company's founders, have extensive experience as artisan goldsmiths. They are a reference point within the company and, together with the best designers, goldsmiths, gem setters and gemologists, who all contribute to the creation of the item of jewellery, they make the fusion possible between aesthetics and functionality of Lunatica Roma collections.
