## The AUTORE Group: Pioneering South Sea Pearl Production and Design

*Sydney, Australia*

The AUTORE Group stands as a world leader in South Sea pearl production and jewellery design, uniquely positioned as both pearl farmers and jewellers. At the heart of AUTORE's success is its ability to cultivate South Sea pearls across its own farms and hand-select the finest of each harvest for its jewellery collections. This rare vertical integration allows AUTORE to guarantee unmatched quality, sustainability, and craftsmanship from ocean to Fine Jewellery.

### **From Ocean to Harvest**

The AUTORE Group is one of the world's largest producers of South Sea pearls, operating 10 farms across Australia and Indonesia. These farms are recognised for their certified sustainable practices, protecting fragile marine ecosystems while producing some of the most sought-after pearls in the world. By controlling every stage of production, AUTORE ensures only the most exceptional pearls are chosen for its jewellery.

### **Where Craft Meets Creation**

AUTORE's award-winning jewellery house transforms its pearls into world-class creations, marrying artisanal craftsmanship with bold innovation. With 11 international jewellery design awards, AUTORE remains the only Australian company to achieve such global recognition. Each piece reflects a balance of timeless elegance and contemporary artistry.

### **The Language of Pearls**

AUTORE developed its signature Five S's – Shine, Surface, Shade, Shape, and Size – a grading system that has become an international benchmark for South Sea pearl quality. This philosophy celebrates the unique beauty of every pearl while setting the global standard of excellence.

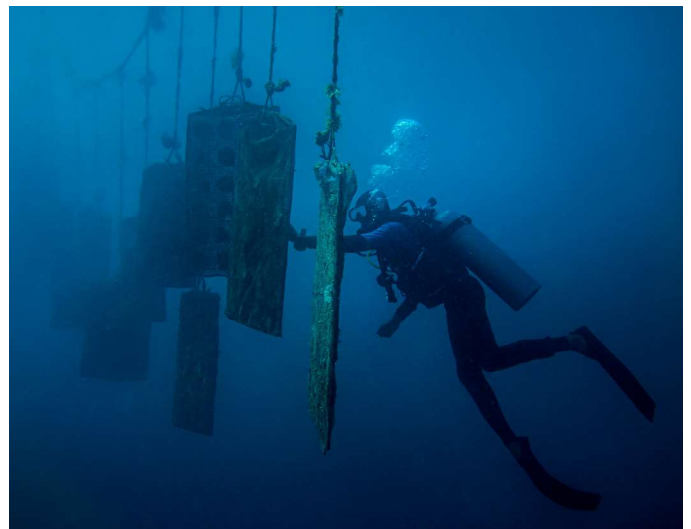

### **A Global Presence**

With its head office in Sydney and a European hub in Germany, AUTORE connects its Australian heritage of pearl farming with international markets. This global footprint enables the Group to serve luxury retailers, wholesalers, and collectors worldwide while staying true to its roots.

### **A Family Legacy**

Founded by Rosario Autore, the Group has flourished as a family-run business built on passion and vision. Alongside his wife Jane, who is the Creative Director of The Group, Rosario established a foundation that now continues with the next generation: Ruby, Luca, and Alessandro, who each bring creativity, innovation, and global perspective. This multigenerational leadership ensures that AUTORE's legacy is both timeless and forward-looking.
