2024 CATALOGUE

**GIOVANNI
RASPINI**

A destiny of beauty makes Giovanni Raspini's creations unique.

Essential luxury from the heart of Tuscany, for a brand that has been striving for excellence and an absolutely personal style for over fifty years. Ideas, matter and work are the key words that Giovanni Raspini, an architect and designer, knows how to translate into jewellery, as well as items for the home. All his creations are designed with the love of the artist and realised with the dedication of the craftsman.

"Each one of our creations is designed, modeled, made and packaged exclusively within the company. Hand made with great care and infinite passion."

Reason, soul, unconscious: a jewel by Giovanni Raspini.

The strong naturalistic, non-geometric mark, the plasticity of the project, make these creations absolutely recognisable. Form and harmony, in the contemporary excellence in workmanship within the great goldsmith tradition. Quicksilver to touch, to wear on bare skin. Silver gilt to give light and colour to a woman who is authentic, independent and bold. Important jewels, with a unique personality, often animalier inspired, shiny in the noble metal.
