

## About Sanjoya Diamonds

Sanjoya is renowned for its jewellery collections, distinguished by exclusive, distinctive, and captivating designs. However, as many jewellers are embracing the 'one-stop-shop' concept for their sourcing, we, as an Antwerp-based jewellery supplier, proudly present our extensive diamond offerings to align with this forward-thinking vision.

Access to Sanjoya.Diamonds is exclusively granted to B2B clients.

**What Makes Sanjoya Diamonds unique?**  
Sanjoya Diamonds stands out by focusing on the highest quality diamonds available in the market, offering exceptional conditions to our clients. For Natural Diamonds (ND) along with standard shapes, we specialise in fancy cuts and exquisite fancy colours. Upon request for both ND and LGD, we craft exclusive designs tailored to our clients' preferences. This includes modified and uniquely shaped diamond cuts.

**Natural and Lab Grown Diamonds**  
As the raw material for both is exactly the same while the quality offered is excellent it's up to customers to choose out of two of the best worlds. Beyond ethical considerations there is a substantial price difference. Sanjoya therefore decided to offer both.

**Sanjoya \*8EX Perfection and Hearts & Arrows'**  
Sanjoya 8EX represents the pinnacle of precision diamond cutting until 2 Ct Lab Grown Diamonds. Only extraordinarily brilliant and beautiful diamonds achieve EXCELLENT grades in all EIGHT aspects of CUT quality assessment. On Sanjoya.Diamonds you'll discover all the details.

**Certifications**  
Certification is essential for the protection of both traders and consumers, and therefore, all diamonds are accompanied by a certificate. Clients can select their preferred type of certification upon request, with associated costs.

QR code to certificate (available after login)  
<https://www.sanjoya.diamonds/diamond/certificate>

Lab grown diamonds ranging from 0.5 Carat to two carats come standard with a comprehensive and guaranteed Sanjoya certificate. Additionally diamonds exceeding 2 carats are provided with an IGI certificate at no extra cost.

**Database**  
To ensure utmost transparency and ease of use, the Sanjoya database furnishes comprehensive details about every diamond. Specifications such as dimensions, images, 360-degree videos, and a direct link to the corresponding certificate are readily accessible. Explore our database to experience the Sanjoya difference.
