GIOVANNI RASPINI
H O M E

A destiny of beauty makes Giovanni Raspini's creations unique. It is an essential luxury that comes from the heart of Tuscany, for a brand that for fifty years seeks excellence and an absolutely personal style. Ideas, matter and work: key words that Giovanni Raspini, an architect and designer, knows how to translate into in objects for the home as well as jewellery, all creations designed with the love of the artist and realized with the dedication of the craftsman.

Home is the new world of Giovanni Raspini, for art to display at home that thrives on contemporary beauty and elegance, corroborated by the luminous energy of noble metals. An authentic and sincere style; in furniture, in design, on the table. **Frames, champagne buckets, diffusers** for ambient fragrances: artefacts with a precious identity, for a concept in continuous evolution. Collections created using the ancient technique of lost-wax casting, works shaped to celebrate the beauty and hand of man, to enhance the home and make it even more welcoming.

Precious stories made of **silver** and **bronzobianco** (white bronze), the noble alloy created in-house. The objects of the Home line have been developed with different metals but using the same artisan techniques to obtain works that are unique for tangible value and research into contemporary design. Bright silver and new bronzobianco, luminous matter that enchants.
