Bespoke & Custom Products

In order to make our working with you on your own special products simpler and more efficient we have developed some guidelines by which we need to work. We hope that these will be clear to you from the start so that errors are minimised and time is not lost, both in sampling and production. Below are some pointers to help you prepare to develop your own products more easily.

How To Develop Your Own Products With Us

We are able to make a very wide range of shapes, sizes, colours and finishes of leather boxes and other products for you. We have developed a 'standard' range of packaging, which, from our experience covers most jewellers' requirements. These are listed together with their prices, and other details including colours and linings, on a separate sheet called Standard Packaging. Many boxes can be used for several items of jewellery simply by interchanging the pads used inside the boxes. All our boxes are fully lined with pullout inserts, except for some necklace box options. Often customers stock several styles of pad per box size in order to maintain full flexibility.

All products have to be sampled first and the samples have to be fully approved before production can commence. Any alterations that need to be made to the first samples will require further samples to be made. If the alterations needed are our fault, we will re-sample free of charge. If, however, you require alterations to the original designs agreed, a charge will normally be made.

In order to make your samples we need **clear black on white artwork** of the logos or designs you wish to have incorporated onto your boxes. **If we need to alter your artwork there will normally be an artwork charge. We will inform you of this charge before we proceed.**

1. First you will need to decide which shape of boxes appeals to you most: square/rectangle, rounded square, cushion shaped oval or round. **We do not supply outer cardboard boxes for any of our products for production reasons.**

2. Next the colour of leather must be chosen, our standard colours are black, brown, blackberry, burgundy, dark green, dark red, red, dark purple, navy blue. Colours that include a 10% surcharge are fuchsia, royal blue, aqua, emerald green and purple. Colours that have a 15% surcharge are tan, natural, orange and pantone matched colours (where possible). This covers the extra wastage of leather incurred. **Please also note that some colours are sensitive to light and may change over time. We will advise you of this when discussing your requirements.**

3. Then you will need to decide on the colour of the lining of your boxes. Please note that very light fabrics will be surcharged at 10% of the cost of both the box and pads because a great deal of extra care is needed to produce these items.

4. We have to work out which sizes and styles of boxes suit your jewellery. Our standard sizes cover most items but we know that many designers make very large or unusual shaped pieces, which we are also able to accommodate at a modest extra charge. Remember that the interchangeable pads make many of our boxes extremely flexible and you can normally manage with 4-6 boxes sizes only, using different pads, to accommodate all the items you sell.

5. The size and placement of your logo comes next. We will be able to assist you with this. We are specialised in blind embossed work (raised embossing). Our standard prices include one blind embossed logo per item. Extra logos and other forms of embossing will be quoted to you as necessary. **Each item needs its own specifically sized metal block for each surface embossed.**

6. We offer display pads and trays to our packaging customers only. There is also a small range of items suitable as gifts for your special customers, which we can make to suit your own colours etc. These also need to be sampled before production.

We are willing to sample half of a set of samples in a one colour way and the other in a second colour way, so you can see the 'real thing' before you make your final decision. This applies to both leather and lining fabrics. It is at the sampling stage that all alterations need to be made and options explored.

Once the final samples have been approved and your order processed, no further alterations can be made.

Timing

Sampling normally takes 4-6 weeks from receipt of your artwork in our office. In periods of maximum production, our suppliers sometimes require even longer but we will inform you if this is the case. Please note we will communicate with you when we have received your artwork with a full list of what you have requested, for your signature of confirmation. In this way we both understand what is being sampled on your behalf and the costs involved, (costs may be approximate in the case of special sizes etc).

Production of your subsequent order normally takes 6-8 weeks from receipt of your deposit payment (See Terms & Conditions – Payment). Timing can depend on the quantity required and also the time of the year you are ordering. We can give you a verbal idea of timing but the confirmed date of dispatch to us by our suppliers will be given to us only a few days after receipt of the confirmed order by them and this will be communicated to you.

If there are specific deadlines involved, please let us know before we begin sampling so that we can be sure to fulfil them or inform you at once if it is not possible for us to meet them.

Care of leather

Our products are hand made from vegetable tanned sheep or goats leather which makes the colours more vulnerable to light. We will make you aware of the colours which darken or change over time when we are discussing your requirements with you.

Leather is a living material which is not happy in moist or very dry atmospheres. Please be sure to unpack your boxes out of their protective cellophane wraps and store them in a cool dry place out of direct light. Air conditioning can sometimes cause condensation to collect on the boxes and this will damage them.

Alternating heat and cold can bring out a whitish bloom which is the polish seeping from the surface. Normally this can be removed by using a soft dry cloth to polish the affected surfaces.

The glazed finish of our boxes is such that if it is scratched polish will not repair it. On the other hand it is very soft to the touch and ages very gracefully. Cleaning only requires a soft cloth to polish it.

Samples

All products have to be sampled first and fully approved by the customer before production can commence. We charge for all samples including their related block charges, our sample administration charge and the cost of sending them to you for your approval. The sample invoice will be sent to you with your samples for immediate payment.

Should you not go forward with an order for all the samples made for you in good faith you will still be liable to pay for them including the second set of samples we make for reference, and their ancillary charges. **Everything is clearly set out for you in writing for approval and signature before we make any samples.**

There is a **Sample Administration Charge (SAC)** of **€300 per set of samples**. (this is reduced to €165 for a single sample). This contributes towards the very real administrative costs we incur in preparing your samples for you. The **block charges and SAC are both one-off charges.**

Our prices, block charges (B/C) and minimum order quantity (M/Q) per item are listed on our Standard Packaging and all other product sheets. These are for the standard products and depend on the colours chosen. Items not on these lists will be quoted separately.

Please note that unlike most embossing, the method we use is different and so each item has to have its own block to cover the **whole** surface of the item (Effectively we stamp the whole item except for the logo or design). Thus a smallish pouch requires quite a large block to cover the whole piece of leather used.

If we make an error we will correct it free of charge. If you change your mind or require alterations to the original sample requested, the new sample will be charged again, including a new block if needed.

Ordering

Orders can only be accepted on fully approved samples

You will receive a fully detailed list of the items we have sampled for you, with prices and minimum's listed clearly. If you are happy with the samples you can order immediately, otherwise we will need to resample, (which we will do as quickly as possible). Your order will be prepared and returned to you for signature of confirmation. At this point your deposit invoice will be raised and sent to you (see payment below). Orders can only be placed on receipt of payment of this deposit and, in the case of first orders, the sample invoice.

Quality Control

Every item is checked in London before it is sent out. As all products are hand made we do have some items which reach us in less than perfect condition. This means that our deliveries are not always 100% of the goods actually ordered. In case you need a minimum number of an item for a special event for example, you will need to increase the order by 10% [5% on orders over 300 pieces per item]. In this case you are obliged to take all good product, which may be up to 110% of the original order.

Payment

We require 50% payment on account for all orders before production can commence. We will send you a deposit invoice for 50% of the total cost of the whole order you have placed. As soon as we receive payment your order will be placed with our suppliers and the expected delivery date will be confirmed. The second 50% and shipping costs, if relevant, will be invoiced when the goods are shipped to you. At this time any shortfall/extra supply of products through quality control or other problems will be taken into account so that on the payment of the second invoice you will only be paying for the exact amount of product you have received. The second payment is due 30 days from date of invoice.

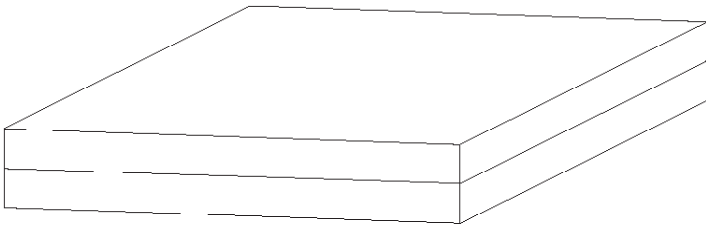

Packing

We normally pack items according to size in cellophane outers in order to protect the products. Should you require the items to be individually packed in cellophane, for gift items for example, please let us know on your order. We do not supply cardboard outer boxes with our products, as they are very expensive to make in small quantities.

Carriage

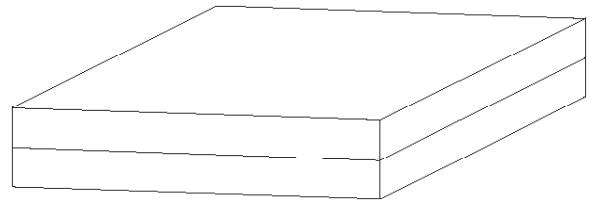

We will ask you where and how you would like your goods to be sent. When your goods are ready to ship we will fax or email you the final invoice and the packing list in order to notify you that the goods are being dispatched. The details of the carrier and consignment note will be included at this time.

Any missing or damaged goods received must be notified to us in writing within 14 days of receipt. Any errors will, of course, be corrected at our cost.

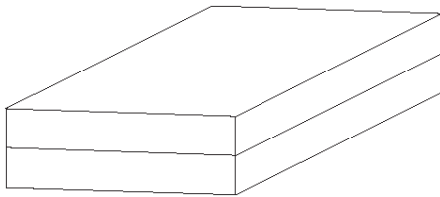

Necklace box

Size: 18x18x3cm, 1.5/1.5cm split
 Price: € 41.55
 Block Charge: € 55.00, Min Qty: 10

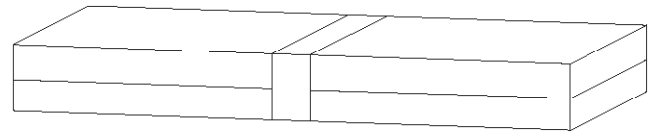

Necklace box medium

Size: 15x8cm
 Price: € 16.45
 Block Charge: € 55.00 Min Qty: 10

Medium pouch

Size: 10x7cm
 Price: € 10.50
 Block Charge: € 43.00, Min Qty: 25

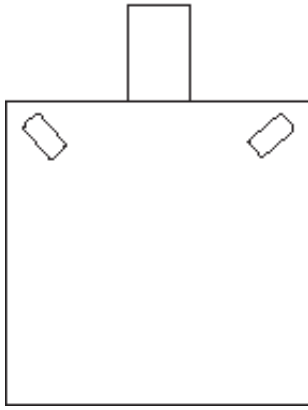

Small pouch

Size: 7x5cm
 Price: € 7.60
 Block Charge: € 31.00, Min Qty: 50

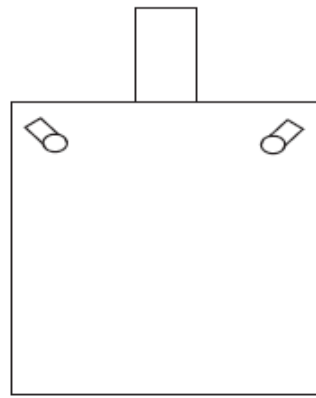

We offer our Standard Boxes in square, rounded square, cushion shaped and round with a wide range of pull out inserts to accommodate the jewellery. All boxes are fitted with foam in the lid and are fully lined. They are priced as empty. The box price also includes the blocking of a logo or design on one surface of each box. The blocking of further logos or designs will attract an extra charge of 30p per block used. Block charges are incurred per block made, (see prices listed below). **Standard colours are: Black, Brown, Blackberry, Burgundy, Dark Red, Red, Dark Purple, Navy Blue and Dark Green. Please note that the following colours attract a surcharge of 10% on box prices only: Fuchsia, Royal Blue, Aqua, Emerald Green and Bright Purple. Natural leather, Tan, Orange and Pantone colour matches can be supplied at a surcharge of 15%.** Also light coloured linings attract a surcharge of 10% on both box and pad prices. Our all-over logo design charge is €100 plus €20 per item that it is sized for.
