

GIOVANNI RASPINI

CHARMS

A destiny of beauty makes **Giovanni Raspini**'s creations unique. Essential luxury from the heart of Tuscany, for a brand that has been striving for excellence and an absolutely personal style for over fifty years. Ideas, matter and work are the key words that Giovanni Raspini, an architect and designer, knows how to translate into jewellery, as well as items for the home. All his creations are designed with the love of the artist and realised with the dedication of the craftsman.

"Each one of our creations is designed, modeled, made and packaged exclusively within the company. Hand made with great care and infinite passion."

Life that flows and enduring eternal values. Passions that grow, loves that blossom, desires that materialise. Changeable and iridescent by vocation, jewels enter into a dialogue with our personalities and become symbols that remind us and those we love of our dreams, goals and all the moments that tell our story.

Charms is Giovanni Raspini's narrative jewel. Young, playful silver jewellery to be treasured, worn and collected. Completely modular and customizable. But also an artifact of high manufacturing quality and with infinite variations. A precious microcosm to give and receive as a gift. Pick them up one by one, examine them through a magnifying glass: you will discover a happy world of fantasy, where it is a pleasure to get lost and dream.
