

FASCINATION GIRELLO – THE MULTI-AWARD-WINNING COLLECTION OF UNIQUE ROTATING RINGS

In October 2023, MEISTER Jewellery launched the exclusive GIRELLO rotating ring as an independent brand. The patented GIRELLO size adjustment system introduces an innovative new way to adjust the ring's size on the jeweler's premises.

GIRELLO is an exclusive, diamond set ring made from platinum 950, yellow gold 750 and rose gold 750, which rotates to cast a magnificent light display. MEISTER's own delicate technology uses the finest moving parts and is unparalleled in the field of high jewellery. A captivating design and smooth movements combine to make the GIRELLO ring something truly special.

Each GIRELLO is now fitted with the new "size adjustment system". The patented technology allows the jeweler to adjust the ring size on the premises, within a range of five ring sizes. Customers can be served directly with no waiting time between purchase and delivery.

The marriage of flawless technology with emotion-led design never fails to appeal to jewellery lovers and internationally renowned design experts alike. The GIRELLO rotating ring is a two-time winner of the globally recognized quality seal, the "red dot design award".

A sensual dance lit by sparkling diamonds, endlessly turning and re-inventing itself. Be captivated by GIRELLO – the multi-award-winning collection of unique rotating rings.
