## FESTINA REAFFIRMS ITS SPIRIT OF THE TIMES

---

These timepieces are designed for distinctive personalities, not rigid classifications. With a deliberately open aesthetic, each chronograph offers free expression, worn according to style, attitude, and the moment.

Vibrant, sporty, and elegant, the collection balances form and function. Structured dials ensure clear legibility,

while carefully considered proportions provide natural comfort on every wrist with a delicate 37,5mm case.

Selected materials combine robustness and refinement, creating a durable and confident aesthetic, water resistant till 10 ATM.

In 2026, the chronograph becomes a personal signature: intuitive, self-assured, and ready to integrate seamlessly into any lifestyle.
